

EXERCISES

Module 13 : Project work/simulation (design an ecotourism itinerary)

Exercise 1 (30 minutes) :

Create 3 to 4 short potential itineraries for different destinations. For each, look up for locations, activities there, ect,...

Exercise 2 (55 minutes) :

Choso two points with no geographic limit. It just need to be far enough to have to plan to travel from point A to point B. Compare the fastest and easier way to get there to the most sustainable one.

Exercise 3 (40 minutes) :

Make a detailed itinerary for a trip with every activities for eah days with a goal of the least environmental impact possible.

Exercise 4 (40minutes) :

After knowing more about cultural initeraries, it is time to research different type of cultural initineraries. Find an exemple for each of this category : historical, literary, artistic, folklore, craft, grastronomic, popular, architectural and Eductional.
