

EXERCISES

Module 4 : Sustainable mobility

Exercise 1 -

Chose a map of your city and draw with a red pencil your daily or most common commutes (work, errands, etc,...) then, think and draw with a pencil of another color of a new route with sustainable options as much as possible. Think of how you could make this route more sustainable with the way of transport you have in your city.

Exercise 2 -

create a full travel itinerary and focus on how you will travel between destinations. Make it as sustainable as possible

Exercise 3 -

Take a city to study and look up for their options of sustainable way of transport and, if needed, imagine which options they could implant in the city to make it easier for inhabitants to use sustainable options (adding stops, lines, addind public bikes, addind a whole way of transport, making it less pricy)

Exercise 4 -

Think of a recent commute you've done using only sustainable transports and rethink of its positive impact. Creat a short message/post in order to promote its use.
